Jan 14 th	10:00 am	Kellman
Week 5	TBD	Nobel

Make sure your child eats breakfast the day of the games. Breakfast does not have to be a grand buffet but they must eat something so they do not get sick from all the physical exertion they put themselves through. **Jewelry** is not to be worn during the games. **Uniforms** will be ordered but will not arrive until about the third week of the season. In the meantime, I will have them wear a navy blue jersey until the jerseys come in but you will need to provide a pair of **navy blue shorts** for the entire season.

Good Sportsmanship is vital in the development of our young Sabin athletes. Although the games get competitive, there will always be a level of respect for our opponents, the referees, and our teammates. Please show good sportsmanship in our victories and in a loss, and that includes you, the parent. I will also lead by example. Being part of Sabin's sports program is a learning experience in not only sport skills, but it is important in fostering healthy children, both physically and mentally. Whether we win or lose most of our games, the true success is measured by your child's ability to develop good work habits, be dedicated to a team, and develop good teamwork skills that they will use for the rest of their lives.
