Now that we are back to in-person learning, we want to emphasize social skills, empathy, and positive group interaction. Students and teachers are making a big adjustment, and we all know that it will be challenging. All teachers in 5th-8th Grade will be collecting student cellular phones each morning and then returning them just before dismissal. This is in accordance with the CPS policy of Student Responsibilities (p 15) : “unless approved by the Principal, cellular phones and other information technology devices are not allowed at school.”

We want to ensure a safe and positive environment at Sabin and we believe that this policy will help students both academically and with positive social interaction.

If your child is not in compliance with the policy, the phone will have to be turned into the office for pick-up later by a parent or guardian.
